

REMARKS

Claims 1, 2, 5 and 20 have been amended to eliminate the term "may be".

Claim 1 has been amended to include "single" in front of chemical bond as suggested by the Examiner. Applicants respectfully acknowledge the Examiner's assistance in this matter.

No new matter has been added in this amendment.

Claims 1-20 are active.

ARGUMENTS

The Office asserts that the listing of the cyclohexane structure in the definition of "T" for Claims 4 and 19 is vague because the cyclohexane is saturated; however a saturated structure is consistent with the definition of "T" presented in Claim 2, which reads "is a divalent saturated or unsaturated ..." (underline added for emphasis). Both Claim 4 and Claim 19 depend from Claim 2 directly or indirectly. This issue was reviewed with the Examiner in an interview, November, 16, 2006. The Examiner agreed that the divalent cyclohexane structure is proper according to the definition of "T" and that the rejection would be withdrawn. Applicants thank the Examiner for his assistance in this matter.

Applicants respectfully submit that the 35 U.S.C. 112, second paragraph rejections of the Office Action of October 12, 2006, have been addressed in this Amendment and the rejections should therefore be withdrawn.

Applicants submit that the above identified application is now in condition for allowance and early notice to this effect is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
Norman F. Oblon
